

Breakthrough Bulletin

News for Breakthrough Supporters - December 2023

Celebrating Our Success This Fall

As we approach the end of the year, we are excited to share the highlights of Breakthrough's activities as we launched into the fall season! Explore below to see our summer 2023 campus t-shirts, our ongoing support for students during the school year, and thrilling updates on current and upcoming initiatives. We express gratitude to the Breakthrough community and all contributors who continually enable us to provide year-round support for our students.

Signing off with Summer T-Shirts

It's that time of the year when creativity takes the spotlight in our annual t-shirt design contest, a vibrant celebration of our students' triumphs during the Summer Program. This year's winners' artwork is showcased on each campus shirt. The t-shirts include a campus-

showcase your style in these exclusive fashion statements arriving at your doorsteps in the months ahead!

Fall Program in Full Swing

Breakthrough continues its support of our hard-working students as they enter each new school year. This fall we launched programming with vibrant orientations and meeting with middle and high school students to outline program expectations and goals that were tailored to each grade level. Our unwavering support adapts to the unique needs of our students.

Our middle schoolers are diving headfirst into STEM workshops, unlocking the mysteries of science, technology, engineering, and math, while also honing their community-building skills in our out-of-school programs. High schoolers are gearing up with our program makeover! Our 9th graders are immersing themselves in a dynamic blend of professional and personal development. Meanwhile, our 11th and 12th graders are navigating the realms of college applications and delving into career exploration through engaging events like career fairs and exclusive corporate office tours.

Breakthrough College Visits

At Breakthrough, we guide students toward college by arranging visits to local colleges across New England and by offering resources to explore universities that are not local. Encouraging a comprehensive approach, we urge students to explore various options. In

scavenger hunt, and possibly the most popular highlight: exploring food options in the campus dining hall.
