

## Summer 2020 Instructional Coach

Breakthrough Greater Boston (BTGB) is a successful college access and teacher training program. BTGB offers six years of academic enrichment and college preparation to middle school and high school students with high potential but limited opportunities. Simultaneously, BTGB recruits, trains and inspires a diverse cohort of high achieving college students to become the next generation of urban teachers. Using a Students Teaching Students model, BTGB provides engaging, tuition-free academic programming during the summer and after school. Our students gain the skills and motivation to succeed in rigorous high school courses and ultimately in college. Meanwhile, our teachers gain hands-on experience, research-based training and coaching from professional educators.

Over the past six years, 97% of our graduating students have matriculated to four-year colleges, and 82% of them have persisted through their undergraduate years. On average, more than 75% of our graduating teachers have gone on to pursue careers in education. After two decades of success at our original Cambridge site, BTGB embarked upon a significant program expansion and opened a second site in Boston in summer 2013 and a third site in Somerville in 2018.
